

VISION

New Zealand's first choice for vocational agricultural learning from foundation to sub degree level

MISSION

To support national development goals, build workforce skills and national identity via an education model that meets the changing needs of lifelong learners. To equip our students with the skills, knowledge and attitude required to be successful in agriculture and where industry needs are met.

CORE VALUES

- Constantly look for better ways to do things
 - Make decisions on sound bases
 - Allow others to achieve
- Experience personal responsibility and expect it in others
 - Focus on solutions not on problems
 - Celebrate success
- Build open and constructive relationships within and across teams and with all stakeholders

Effective and reputable pastoral care
